## PROFILE SUMMARY

Software Engineering student at SMK Telkom Malang with practical experience in Fullstack Web Development focusing on Next.js, NestJS, and Laravel (Basic). Experienced in building web applications from UI components and REST API integration to database management using Prisma ORM and MySQL. Proactive problem solver, quick learner, and ready to contribute effectively as a Fullstack / Frontend Developer Intern.

## TECHNICAL SKILLS

- **Frontend Development:** HTML, CSS, Javascript, TypeScript, React, Next.js, Tailwind CSS, Bootstrap
- **Backend & Database:** NestJS, MySQL, REST API, Prisma ORM, Railway, Firebase, Node js, Laravel (Basic)
- **Tools & Libraries:** Git, Github, Figma, VSCode, Postman, Vercel, ReactBits, Antigravity, Bootstrap
- **Other Skills:** Teamwork, Communication, Problem Solving, Photography & Videography, Color Grading

## PROJECTS & EXPERIENCE

**Frontend Developer | Quizit – | 2026**

- Engineered an interactive quiz application using React.js and Tailwind CSS with OpenTDB API integration.
- Custom-built client-side state persistence to preserve quiz progress, active timer countdowns, and user sessions during page refreshes.
- Implemented route guarding and manual error handling to ensure application stability.

**Frontend Developer & Content Specialist | SMK Telkom Malang Official Website (JHIC 2026) | 2026**

- Conducted regular UI audits and frontend revisions using Next.js and Tailwind CSS to maintain design consistency and cross-page layout standards
- Authored website copywriting and produced high-quality photography assets for facility showcases and main hero section banners
- Collaborated in a team environment to build the school's new official website.

**Fullstack Developer | urSpace – Coworking Space Booking Platform | 2026**

- Developed a fullstack coworking space reservation platform based on UKK technical documentation using Next.js and Laravel REST API.
- Implemented core application workflows including booking schedule validation, user management, and automated QR Code e-ticket generation.

**Fullstack Developer | Taskflow – Task Management Application | 2026**

- Built a scalable task management application using Next.js, NestJS, and TypeScript to handle dynamic task workflows and user permissions
- Utilized Prisma ORM with MySQL for data persistence, authentication routes, and task status handling.

**Frontend Developer | Trainbook – Online Train Ticket Reserve Platform | 2026**

- Developed a responsive railway ticketing web interface using Next.js and Tailwind CSS, modeled after modern ticketing platform standards.
- Connected frontend components with NestJS REST APIs to render real-time train schedules, seat selection, and user profiles.

**Frontend Developer Support| Glucofy – | 2026**

- Contributed to UI development and responsive layout bug fixes using Next.js and Tailwind CSS.

## EDUCATION

**SMK TELKOM Malang** | Rekayasa Perangkat Lunak / Software Engineering | 2024-2027

## SERTIFIKASI DAN PRESTASI

- Finalist KSN 2026 (Kompetisi Standardisasi Nasional)
- Semi Finalist JHIC 2025 (Jagoan Hosting Infra Competition)
- Certificate of Completion Problem Solving Basic HackerRank
- Certificate of Completion SkilVul (HTML, CSS, JavaScript)
